

My Wish

1

For my birthday I wish for

New blue curtains that float down

A car that starts in the morning

The hiss of a ball falling from a cliff

The growl of a brown cow

Yellow soap for a boy to enjoy

Church bells under the summer sunset

A head of fair hair

May rain pooling around town

2

For my birthday I wish for

Birds flying in the night air

A good book by a chief author

Thinking cats and yawns from elephants

Dirty hands and fresher skin

A pie with green pear filling

Wheels from a car that ride like
never before

A scare from a bear that catches a thief

Fields buzzing with unhappy crows
