

## FINGER ADDITION

**Area of Maths:** Addition and Subtraction

**Skill:** Solve problems with addition and subtraction

## YOU WILL NEED...

**Equipment:**

You will need a number of hoops for this activity.

**Instructions:**

1. Short fun game – can be used as warm up or as part of
2. In the hall spread out hoops randomly.
3. Tell the children that each of their fingers is to represent 1, therefore one hand is worth 5.
4. Give/call out a calculation like  $13 + 8$ . The children work out the answer and then have to work together to put the correct amount of fingers into a hoop to show the answer.

**Variation:**

Repeat the game again using subtraction.
